

Call for Letters of Interest to Host ICSE 2030 in Europe

ICSE is the premier international forum for researchers and practitioners to present and discuss the most recent innovations, trends, outcomes, experiences, and challenges in the field of software engineering.

The conference is hosted around the world, and 2030 is the year for ICSE to be hosted in a location in Europe. (More information about the conference organization and the three-year continent rotation scheme can be found at <http://www.icse-conferences.org/>)

As ICSE's vibrant and global community continues to grow, so does the number of potential hosting sites. To leverage such opportunities, *the ICSE Steering Committee now invites the submission of **Letters of Interest** (LoI) to host ICSE in April 2030.*

The letters are meant to inform the Steering Committee of potential available teams and sites and they are not binding. Please do not make any commitments to prospective venues or organizing members as the submission of the letter is just one piece in a more extensive evaluation process.

Submission Content. A one-page document must include:

1. **Submitter contact information.** Submissions must come from academic organizers, and not from (commercial) conference organizing organizations.
2. **Organizing core team.** The proposed general chair should have conference leadership experience and strong standing in the ICSE community. A CV for the proposed general chair(s) can be provided as a separate document. The letter can include the names of other potential team members. Do not make any commitments to team members that they will be program chairs of the technical track or software engineering in practice track, as these positions are voted on by the steering committee.
3. **City and potential venues**
4. Brief description of **local software engineering community** (academic and industrial) that would support and participate in the conference
5. **Attributes of the site** that would make it appealing for attendees
6. Expected **impact** to the local and global software engineering community

Submission deadline. March 1, 2026

Submission procedure. Email letter in pdf to the ICSE SC co-chairs: arie.vandeursen@tudelft.nl and mstorey@uvic.ca.

Next steps: From the submitted LoIs, the ICSE SC will invite selected submitters to present their proposal at the SC meeting that will take place in April at ICSE in Rio de Janeiro.

Intent to Submit and Enquiries If you're considering submitting please reach out to the ICSE SC co-chairs to express your intent to submit or ask questions.
